Baxter Wells

Software Engineer & Business Analyst

INDUSTRY EXPERIENCE

September 2024 – Current

Software Engineer — Tennessee Valley Authority

- Developed and deployed a business unit Dataiku Generative AI Chatbot to empower SQL database knowledge transfer.
- Developed multiple Power BI dashboards visualizing TVA's partner engagements, receiving VP recognition for efficiency and impact.
- Owned, coordinated, and facilitated monthly business unit presentations consisting of over 14 contributors.
- Developed intuitive and robust Power Apps, assisting career progression and manipulating production-level SQL data.

May 2022 – August 2022

Business Analyst Intern — Kimberly-Clark

- Developed and globally deployed a Power BI dashboard that increased efficiency of internal enhancement projects by 26%.

June 2021 – August 2021

Business Analyst Intern — Chick-fil-A Corporate Office

- Led a development lifecycle from conception to completion via Scrum sprints, ensuring effective collaboration.
- Improved the efficiency and accuracy of Chick-fil-A's first-party delivery orders by 32% with a unique Codenames system.

May – August 2019 & June – August 2020

Fortune 500 Company

Software Engineer Intern — Eastman Chemical Co.

- Modernized Eastman's medical data systems by building web applications with ASP.NET Core MVC, C#, HTML, and JavaScript.
- Developed Power BI dashboards to convey external server usage metrics, informing Eastman to save over \$3.2k per month.

OTHER RELEVANT EXPERIENCE

August 2023 – May 2024

Campus Ministry Staff — Georgia Tech CCF

- Executed over 92 events that fostered effective communication.
- Led 25 university students in over 31 leadership workshops.
- Independently raised over \$9.4k to support my missions work.

INDEPENDENT PROJECTS

Independent Video Game Development

- Built and deployed a dynamic nature simulation with procedural generation, complex behaviors, and GLSL shaders.

SERVICE & LEADERSHIP

Chattanooga Food Bank (2026)

Chambliss Center for Children (2026)

Appalachia Service Project (2023)

- Provided critical hurricane repairs, including constructing ADA-Certified wheelchair ramps and installing porch foundations.
